Subject: Building Update - February 8, 2008

Previously we sent you a [report](#) regarding a recent water event on the 10th floor. Attached is an [evaluation](#) of the report from our consultant, [Dr. Stephen Munday](#). DGS is working on a plan to address the issues caused by the water intrusion in the affected offices.

Meanwhile, remediation efforts on the 23rd floor, south side, continue.

Once again I ask you to keep us apprised of any issues or concerns you have regarding the building through the [survey report](#) on this website. Thank you for your assistance.
